- JavaScript
- MongoDB
- React
- Express.js
- Bootstrap
- CSS
- TypeScript
- Firebase
- Node.js
- Next.js
- GraphQL

LANGUAGE SKILLS

Italian: Native
English: C1
German: B1
Spanish: B1

EDUCATION HISTORY

FULL STACK DEVELOPMENT | CODE ACADEMY

September 2022 - February 2023

intensive and full-time onsite course that lasted 6 months, consisting of 840 hours of practical, project-based work. Throughout the course, we followed the Agile/SCRUM framework as a cohort, incorporating code reviews, spikes, and presentations into our activities.

PROJECTS

- **SQUISITO**
Fake shop of high class kitchen appliances, developed using Next.js, Typescript and MongoDB.
- **CODAC**
A collaborative project to implement the Academy's new community platform, using Next.js, Typescript and GraphQL.
- **BERLIN FANTASTIC CREATURES**
Social Network App built with the MERN Stack. The features include posts, comments, likes, and favorites. Web tokens and access management rules (CRUD) have been implemented for secure data exchange.
- **AGE OF EMPIRES 2 API**
API with all the information of the RTS game Age of Empires 2. The site was implemented with Javascript, React, MongoDB and Node.js.
- **AGE OF EMPIRES 2**
Progressive Web App using React, using the Age of Empires 2 API developed by me. Additionally, I leveraged Firebase Authentication and Firestore to implement features such as favoriting and commenting.

WORKING EXPERIENCE

7 years of experience working in the gastronomy sector as a chef, including 3 years as a Chef de Partie. During my tenure as Chef de Partie, I led teams of up to 4 people.

SOFT SKILLS

- Confident under pressure
- Detail-oriented
- Team player
